

Heavy Duty

Wiper Products for Trucks, Buses and Recreational Vehicles

Keep your fleet on the street with TRICO's comprehensive line of original equipment quality wiper blades, refills, arms and hoses. TRICO has wiper products for virtually all heavy duty trucks, buses and recreational vehicles – so you're always sure to have the right blade on hand. That's why TRICO has been one of the industry's leading suppliers of wiper products for nearly 90 years.

All TRICO heavy duty wiper blades and refills feature rugged metal construction and a durable natural rubber wiping element for reliable performance under demanding conditions. TRICO heavy duty wiper blades and refills are available in a variety of designs and finishes from 10" to 32", and include adaptors for easy installation onto competitive wiper arms.

Safety starts at the windshield. To protect your fleet, look to the TRICO heavy duty line.

Keep Your Fleet On The Street – Stock Up Today!

61 SERIES

61 Series blades are designed for flat windshields. They are typically found on heavy duty trucks, school buses, step vans and recreational vehicles. Eighteen part numbers are available in lengths from 10 to 22 inches.

63 SERIES

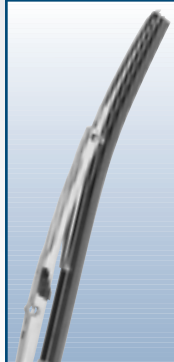

63 Series blades are designed for heavy duty arms that have less than 48 oz. of load. These five bar blades may be used on both curved and flat windshields. Nine part numbers are available in lengths from 12 to 20 inches.

64 SERIES

64 Series blades are designed for heavy duty arms that have 48 oz. of load or more. These three bar blades may be used on both curved and flat windshields. Five part numbers are available in lengths from 16 to 20 inches.

65 SERIES

65 Series blades are specifically designed for specialty side lock arms on heavy duty trucks. Available in 20 and 22 inch lengths.

66 SERIES

66 Series heavy duty winter blades are manufactured with a tough rubber boot that encloses a heavy duty constructed metal superstructure. Four part numbers are available in lengths from 13 to 20 inches.

67 SERIES

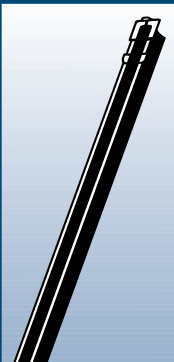

67 Series blades are designed for wide saddle arms, which are typically found on Class A recreational vehicles, school buses, transit buses and heavy duty trucks. Four part numbers are available in lengths from 22 to 32 inches.

68 SERIES

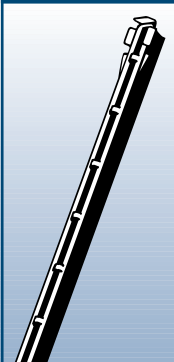

68 Series all metal blades feature an aerodynamic vented superstructure. This style blade is utilized by TRICO as the OE blade on Class A recreational vehicles and some heavy duty trucks. Available in lengths of 24, 26 and 28 inches.

70 SERIES

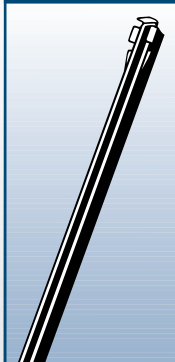

70 Series heavy duty refills fit Anco's 50, 52, and 57 Series blades. 70 Series refills feature a natural rubber wiping element for superior performance plus twin-rail construction and a secure dual latch lock. Four part numbers are available in lengths from 16 to 26 inches.

71 SERIES

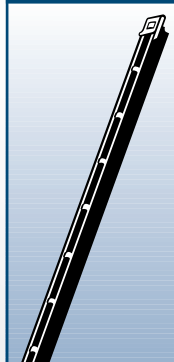

71 Series Type A refills feature a steel bridge rail spine to fit TRICO 63 Series blades. 71 Series Type B refills feature steel twin rails to fit TRICO 67 Series blades. 71 Series refills are available in eight lengths from 14 to 28 inches.

72 SERIES

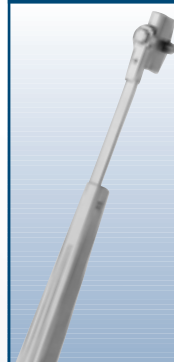

72 Series refills are designed to refill TRICO 64 and 65 Series blades. 72 Series refills feature a natural rubber wiping element, a steel rail spine, and a secure latch lock. Four part numbers are available in lengths from 16 to 22 inches.

75 SERIES

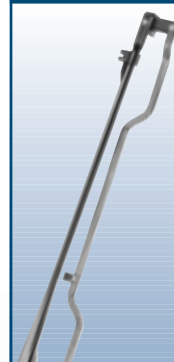

75 Series refill fit both TRICO 68 Series and Dyna OE recreational vehicle blades. These refills feature a natural rubber wiping element and a steel bridge vertebra, which are easily removed and installed via the refill's latch lock clip. Available in lengths of 24, 26 and 28 inches.

73 SERIES

73 Series heavy duty adjustable wiper arms have a silver finish and feature an adjustable saddle and arm length.

74 SERIES

74 Series heavy duty OE style wiper arms are an original equipment replacement for heavy duty trucks. Available in tubular and pantograph styles.
